Hoi [redacted],

Ik ga de vraag over de grondwaterstanden voor leggen aan de collega van MN in Lelystad. Zij zijn de gene die hierover gaan.

Hoi [redacted],

Wachten we nog even af.

Ik kreeg zojuist van de heer [redacted] (eigenaar locatie Buitendijks 4) ook te horen dat hij een paar keer geprobeerd heeft om toegang te krijgen tot het systeem van RWS (misschien dat hij ook wel Dino-loket bedoeld) dat inzage geeft in grondwaterstanden van monitoringspeilbuizen in de buurt, maar dat helaas niet lukte en hij het uiteindelijk heeft opgegeven. Hij had daar al eerder contact over gehad met RWS.

Voorals omdat de grondwatersstanden daar al een behoorlijke tijd fluctueren, wil hij wat meer info omtrent de grondwaterstanden in de nabije omgeving.

Kunnen jullie hierin eventueel helpen/ondersteunen? Misschien bijvoorbeeld ook wat uitdraaien leveren van de afgelopen tijd.

Ik hoor het nog wel.

Goedemorgen [REDACTED],

Is er toevallig al wat meer bekend over de uitgevoerde waterbodemonderzoeken ter plaatse van de Reevesluis waar we het 15 februari over hebben gehad?

Ik hoor het nog wel.

Beste [REDACTED],

Ik heb nadere info over de gegevens van de peilbuizen gevonden. Bij de aanleg van het reevediep is afgesproken dat er een monitoring zou komen op het grondwater. Hiervoor zijn er meerdere peilbuizen geplaatst die tot 2033 worden uitgelezen. De gegevens worden beschikbaar gesteld aan het BRO (<https://basisregistratieondergrond.nl/>). Nu ben ik zelf hiermee niet bekend maar mogelijk kun jij er wel iets mee.

Ik kreeg de grondwaterstandsgegevens door van collega [REDACTED]. Bedankt daarvoor. Met name het uitgebreidere projectmeetnet van Rijkswaterstaat is interessant. Nu zie ik metingen vanaf 2020, maar er is toch al langer gemeten? Vanaf 2015 dacht ik al? Zijn die gegevens er ook? Ik ben erg benieuwd of we een kwelsituatie kunnen afleiden, want wat ook de stof is / stoffen zijn waaruit het probleem ontstaat, de kans is groot dat het omhoog (k)welt. Dan is het zaak in die periode monsters te nemen. Hoe langer de reeks, hoe beter de kans om het ritme van de grondwaterbewegingen te ontleden.

Beste heer, mevrouw [REDACTED],

Uw melding BM23 05 00045 is afgemeld. Hieronder vindt u onze reactie:

Beste Meneer [REDACTED]
We hebben even onderzocht.
Wij hebben voor locatie GMW000000028579 geen actuele grondwatermonitoring gegevens - Wellicht dat Rijkswaterstaat nog nieuwe gegevens heeft maar dit is voor ons lastig te achterhalen.

Bericht

Ik heb gegevens opgevraagd van een aantal peilbuizen. Klopt het dat er geen gegevens bekend zijn tussen 2020 en nu?

Nee ik heb geen gegevens van voor die tijd. De opdracht voor de monitoring is pas in 2020 verleed. Voor ouder gegevens moet je naar het DINO-loket.

Hallo [REDACTED],

Als gistermiddag telefonisch besproken. Zie onderstaande plaatje in de mail van mijn collega [REDACTED]. Van deze punten uit het Reevediep wil men graag (liefst vandaag) de data ontvangen.

Ik stuur je voor de duidelijkheid in de bijlage een gedetailleerd(er) kaartje van de kaart uit de mail van [REDACTED].

Alvast bedankt!

Met vriendelijke groet,

Beste [redacted] en [redacted],

Ik zie in bijgevoegde pdf-document dat jullie betrokken zijn bij de monitoring van de peilbuizen rond het Reevediep. Ik heb in eerste instantie bij het DINOloket informatie opgevraagd over de monitoringsgegevens van de peilbuizen maar daar kreeg ik te horen dat het geen gegevens zijn van na 2019 (zie bijgevoegde mail). Kunnen jullie mij verder helpen aan monitoringsgegevens van de grondwaterstanden tussen 2019 en nu. Het gaat met name om het gebied op onderstaande tekening wat ik heb geknipt uit bijgevoegde POF.

Groet,
