**Onderwerp:** RE: bijlagen SSRS

Ik vermoed dat het hexagoon met het grootste tekort na gebruik SSRS niet hetzelfde hexagoon is als waar de grootste toename is berekend.

Hoi [redacted], vraagje, de ruimte die we gebruiken zou bijvoorbeeld voor H2330 6,52 min 0,80 is 5,72 mol zijn (op hexagoon met grootste bijdrage). In de bijlage staat dat 6,15 mol de hoogste bijdrage is. En voorts een vinkje dat ruimte beschikbaar is.

Hoe verhoudt dit zich allemaal tot elkaar, mede omdat we dit toevoegen als bijlage bij de PB. Moet daar nog iets van uitleg bij?

Hoor graag nog even.. yhx..

Hoi [redacted],  
Bij deze nog de bijlagen uit het SSRS dat de gevraagde ruimte voorhanden is en is toegekend.
