|--|---|----------------------|--|
| Betreft | Fytoplanktonanalyses in de zoute Rijkswateren MWTL 2020, digitale basisrapportage | | |
| Projectnummer | 20-0759 | | |
| Rapportnummer | 20-066_2 | | |
| Rapportstatus | | | |
| Aantal datababbladen | 10 | | |
| Datum | 1-7-2020 | | |
| Opdrachtnummer | RWS 31161272 | | |
| Opdrachtnemer | Bureau Waardenburg bv Oosterweg 127 9751 PE Haren | Opdrachtgever | Rijkswaterstaat Centrale Informatievoorziening Postbus 17 8200 AA Lelystad |
| | Postbus 111 9750 AC Haren T: 050-820 00 18 F: 050-820 00 13 E: a.van.den.oever@buwa.nl I: www.buwa.nl | | contactpersoon: mevr. A. Kasmidjan E: ana.kasmidjan@rws.nl T: 06 51397705 |
| Methode | Analyse: Door Bureau Waardenburg conform A2.113 (versie 4) Rapportage: Door Bureau Waardenburg conform Protocol Digitale Basisrapportage, Bijlage 2 31135110 Accreditatie analyses (Q): ja. | | |
| Acceptatie en staat van de monsters | Tussen 23-11-2020 en 15-12-2020, lugol geconserveerde monsters | | |
| Verklaring tabbladen | Colofon 1.1- 1.5 Phaeocystis gegevens (5 bladen) 2. KRW beoordeling (EKR's) (1 blad) 3.1- 3.4 Chlorofyl-a gegevens (4 bladen) | | |
| Uitvoering analyses | Vestiging Haren: B. Sanjabi, A. van den Oever | | |
| Rapportage | Vestiging Haren: A. van den Oever | | |
| Controle | G.L. Verweij (projectleider) | | |
| Kwaliteitsborging | H. Posthumus (kwaliteitsfunctionaris) | | |
| Akkoord |  | | |
| | G. L. Verweij Projectleider Hydrobiologie | | |
| Disclaimer | De hier gerapporteerde analyseresultaten hebben uitsluitend betrekking op de onderzochte monsters. Adviezen en interpretaties zijn niet geaccrediteerd. Voor de prestatiekenmerken van de onderzochte parameters verwijzeren we naar de officiële rapportages. Mocht u nadere informatie wensen omtrent de hier gerapporteerde resultaten dan kunt u contact opnemen met Anneke van der Velde. | | |

3.1.1 Trendgrafeiken per KRW waterlichaam: aantal bloeden per jaar met *Phaeocystis* concentratie > 1 miljoen en > 10 miljoen cellen/l (over de gehele monitoringperiode en over de laatste tien jaar)
 Puntten in de grafieken vertegenwoordigen de (gemiddelde) waarde van één of meer meetpunten in het betreffende waterlichaam. Linkboven in elke grafiek staat de naam van het betreffende waterlichaam, met tussen haakjes de locatiecodes van de betreffende meetpunten
 Trendlijnen met behorende waarde voor R^2 zijn omgeslagen als de regressie niet significant is en doorsneden reken als $p>0.05$.
 Voor zowel waarden over de gehele monitoringperiode als voor korte series en trends over de laatste tien jaar zijn inverse tweedegrads polynomen berekend en lineaire regressie toegepast.

3.3.2 Maandgemiddelde Phaeocystis concentraties per KRW-waterlichaam in 2020

3.3.1 Maatgedimdeerde $\text{rH}\alpha\text{cots}$ concentraties per KRW-watertypelijn in 2020 gemiddelde waarden en standaarddeviatie in cellen per liter ($n =$ aantal monsters, met inbegrip van monsters $< 10^6 \text{ c/f}$ die bij Aquokit genegeerd werden)

| Waterlichaam | aantal mnd Phaeobloei geconstateerd (gemiddelde) | JAN | FEB | MAA | APR | MEI | JUN | JUL | AUG | SEP | OCT | NOV | DEC | | | | | | | | | | | | |

3.1.1 Trendgrafeiken per KRW waterlichaam: jaargemiddelde en jaarmaximum chlorofyl-a concentratie $\mu\text{g/l}$ (over de gehele monitoringperiode en over de laatste tien jaar)

Polynome van de derde graad (gebruikt voor de jaargemiddelde) en lineaire trendlijnen voor de jaarmaxima.

Lijnkokers in elke grafiek staan de naam van de betreffende waterlichaam, met tussen haakjes de locatiecodes van de betreffende meetpunten.

Trendlijnen met bijbehorende waarde voor R^2 zijn gestipt als de regressie niet significant is en doorgetrokken als $p < 0.05$.

Voor zover waarde over de gehele monitoringperiode als voor kortere series en trends over de laatste tien jaar zijn inverse tweedegrads polynomen berekend en lineaire regressie toegepast.

3.3.2 Maandgemiddelde chlorofyl-a concentraties per KRW-waterlichaam in 2020

gemiddelde waarden en standaarddeviatie in µg/l (n = aantal monsters)

| Waterlichaam | JAN | | | FEB | | | MAART | | | APRIL | | | MEI | | | JUNI | | | JULI | | | AUG | | | SEP | | | OKT | | | NOV | | | DEC | | |
